

PRODUCT/PHOTO

SNB WHITE BASE / COLOR GELACQUER GLW01

PRODUCTION CONCEPT

Base and color of the SNB gelacquer system, with a **bright white color**. Its dense texture provides maximum coverage. Used as a base, the product **enhances the color of the selected colored gelacquer**. White base and color gelacquer SNB is suitable for French manicure. Compatible with all products from the SNB gelacquer system.

Key product benefits:

- High flexibility, close to the elasticity of natural nails;
- Used as a base: enhances the color of the applied colored gelacquer;
- Used as a color: a dense texture that provides maximum coverage;
- Suitable for French manicure.

APPLICATION

Apply **Ultrabond** on natural nails. Apply **SNB white base/color** and cure for 60 seconds under UV LED light. Apply a color gelacquer from the SNB gelacquer system and cure for 60 seconds under UV LED light. Finish with a top product from the SNB gelacquer system.

Recommendation: Apply **SNB white base/color** in thin layers.
