

**PRODUCT/PHOTO**

**Nail care ALL IN ONE - MPNZ20**

**PRODUCTION CONCEPT**

**Nail care ALL IN ONE** strengthens the natural nails and prevents them from breaking and splitting. Excellently adheres to the nail plate and gives exceptional shine. A perfect 3 in 1 coating, which can be used for base and top coat as well.

**Main Product Benefits:**

- **Strengthens** natural nails and prevents them from breaking or peeling;
- **Provides a suitable base** for applying nail polish - protects natural nails from pigmentation;
- **Creates a top coat** that extends the durability of the nail lacquer cover and protects it from scratching.

**APPLICATION**

**Usage as a nail strengthener:** Apply a thin layer of the product on clean nails and allow the coating to dry out for 2 minutes. Apply a second coat and wait 2-3 minutes to dry completely. Apply a new coat every 2 to 4 days to strengthen weak nails.

**Usage as a base / top coat:** Apply a thin layer of the product on clean nails and allow the coating to dry out for 2 minutes. Apply nail lacquer and finish the manicure with one coat of product that will dry completely in 2-3 minutes.

**Recommendation:** To strengthen and protect natural nails from breakage and peeling, apply twice a week or as a base under the color nail polish.

**INGREDIENTS**

Ethyl acetate, Butyl acetate, Isobutyl acetate, Nitrocellulose, Isopropyl alcohol, MEK, Tosylamide/epoxy resin, CI 77891, CI 60725.

**CONSUMPTION**

15 ml bottle with brush – enough for one layer application over 10 fingers for at least 45-50 clients
